Career Objective

Computer Science Engineering student with hands-on experience in Software Development, AI Applications, and UI/UX Design. Skilled in Python, JavaScript, Figma, Git, and problem-solving. Smart India Hackathon 2024 Finalist with experience building AI-powered systems, user-centric interfaces, and automation solutions.

Education

2024 – Present	B.Tech – Computer Science Engineering , MVGR College of Engineering, Vizianagram CGPA: 9.07
2020 – 2023	Diploma–CSE , Government Polytechnic for Women, Bheemunipatnam CGPA: 9.10

Experience

01/2026 – 03/2026	AICTE EduSkills (Google for Developers) , Android Developer Virtual Intern - Completed training focused on Android application development fundamentals. - Learned activity lifecycle management, layouts, and UI design principles. - Built foundational understanding of mobile application architecture.
05/2025 – 06/2025	Bluestock Fintech , Software Development Intern - Worked with software development workflows and debugging processes. - Assisted in testing applications and analyzing system performance. - Gained practical exposure to backend systems and API integration.
07/2022 – 01/2023	Tech Mahindra Smart Academy , UI/UX Intern - Created wireframes, user flows, and interactive prototypes using Figma. - Applied user-centered design principles to improve usability and accessibility
04/2026 – 06/2026	AICTE EduSkills , MERN Full Stack Development Intern - Building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. - Developing REST APIs, authentication systems, and database integrations. - Applying Git workflows and deployment practices through hands-on projects.

Projects

Real-Time Location Tracking for NSG , Tools Used: Blender, Python, Matplotlib - Developed a live tracking system for NSG (National Security Guard) teams operating in complex urban environments such as hotels and metro stations. - Focused on enhancing tracking accuracy by addressing challenges with traditional GPS/GSM in multi-floor and basement environments. - Integrated real-time location data with 3D building models for tactical visualization, aiding in better decision-making during critical operations. - Proposed a solution that eliminates the need for UWB hardware, ensuring cost-effectiveness while maintaining operational reliability.

Hotstar Prototype using Figma

- Independently designed a UI/UX prototype of Hotstar, focusing on seamless navigation and user experience.
- Conducted self-testing and iterated on the design based on feedback to improve usability and aesthetics.

AI Voice Assistant using Python

- Developed a Python-based voice assistant capable of performing tasks such as opening applications, searching the web, fetching news/weather updates, and responding to voice commands.
- Implemented speech recognition, text-to-speech, and NLP libraries to enable real-time interaction.
- Integrated APIs to extend functionality for tasks like music playback, Wikipedia search, and system automation.

AI-Powered Requirement Gathering System

- Developed a multi-agent AI platform for automated SRS and BRD generation.
- Implemented multilingual voice support and ambiguity detection.

RAG-Based Knowledge Retrieval System

- Built a Retrieval-Augmented Generation pipeline using LLMs.
- Applied chunking, reranking, and prompt engineering.

Skills

— Python, C, C++, Java

— Figma, Canva, UI/UX Design

— HTML, CSS, JavaScript, React.js, Node.js, Express.js

— Git, GitHub, MATLAB, Adobe Creative Cloud

— OOP, REST APIs, Authentication (JWT), MERN Stack, Problem Solving, MongoDB

Certifications

- UI/UX Design by Tech Mahindra
- AICTE SIH Participation
- Certificate of Participation in NYD hackathon 2025
- Python Essentials 1 – Cisco Networking Academy
- Quantum fundamentals by Wiser

Activities

- Finalist at Smart India Hackathon 2024
- Participant of National Youth Day Hackathon 2025
- Volunteered for Swecha AP Freedom Fest 2025
- Active volunteer at From the Youth For the People and MVGR GLUG
- Selected Team – Sankalp 2025 Intra-College Hackathon
- Coordinator – Aadhritha Hack24 National Hackathon
